In an instant the room grew brighter, the small candles burned brighter still, and Alyosha saw twenty small knights in gold armour, with crimson-plumed helmets, march quietly into the hall in pairs. They stood on either side of the chair in

silence. A little later a man with regal bearing and a crown shining with precious stones on his head came into the hall. He wore a light-green mantle lined with mouse fur with a long train carried by twenty small pages in crimson suits. Alyosha realised that this must be the king. He gave him a low bow. The King responded to his bow most graciously and sat down on the gold chair. Then he gave an order to one of the knights standing by him, who came up to Alyosha and told him to approach the chair. Alyosha obeyed.

To deepen the research of typography and design of hatchways I made a video demonstrating the tactility of embossed typography, its somatic effects, and its impact on the reading direction.

Phonopoetry. Ti li ty sounds. Series of booklets with poems made from the sentences from my diaries. An exercise to acknowledge the rhythmic potential of any text and constantly juxtapose it to the content. February–June 2023

Phonopoetry. Ti li ty sounds. Screening performance. I demonstrate my system by applying it to several random sentences. I repeat the sentence making sure its rhythm is noticeable. I rewrite the sentence, vocalize it and regroup its syllables so it becomes a poem. April, June 2023

registry

A project founded and curated with Naomi Serov. registry is a setting organised for play within the formal and informal. Part of our practice is creating systems for collected information that was not structured before and perhaps never needed to be. We like absurdity. We mock bureaucracy. 2022–now Online registry portfolio will be available soon via this link: <https://my.readymag.com/edit/4328690/preview/>

Kak mamina ruka, kak papino trik
Kak ribi-korabli, kak misli durak
Nad styoklamzi zemli leteli oblaka.

Leteli kupola, dorogi i tsveti
Zvonya v kolokola bespechniy kalyan
Kak kapli moloka, kak zdravstvui prosso
Kak nedopity chai, leteli oblaka. leteli oblaka

1 The world is everything that is the case.
1.1 The world is the totality of facts, not of things.
1.2 The world is determined by the facts, and there can be no other.
1.3 For the totality of facts determines both what is the case, and also all that is not the case.
1.4 The facts in logical space are the world.
1.5 The world divides into facts.
1.6 Any fact can either be the case or not be the case, and everything else remains the same.
2. What is the case, the fact, is the reality.
2.1 An atomic fact is a combination of objects (entities, things).
2.01 It is essential to that it can be a constituent part of an atomic fact.
2.02 In logic nothing is accidental; if a thing can occur in an atomic fact, the possibility of that atomic fact must already be prejudice in the thing.
2.021 It would, so to speak, appear as an accident, were to think that could exist alone, its existence subsequently a state of affairs could be made to fit. If things can occur in atomic facts, this possibility must already lie in them.
(A logical entity cannot be merely possible, but must always have even possibility.)
2.022 Just as we cannot think of spatial objects at all apart from space, or temporal objects apart from time, so we cannot think of any object apart from the possibility of its co-existence with other things.
If I can think of an object in the context of an atomic fact, I cannot think of it apart from the possibility of this context.
